ELECTRIC SAFETY
IF YOUR HOUSE FLOODS...

• **DO NOT enter.** Submerged outlets or electrical cords may energize standing water.

• **DO NOT plug in or turn on appliances** unless an electrician has told you it’s safe.

• **DO NOT touch a circuit breaker with wet hands** or while standing on a wet surface.

• **DO call a qualified electrician** to disconnect the power before you enter a flooded room or basement, and before you reconnect an appliance that has been wet.
