AN EXELON COMPANY

Call before you dig.

- Replacing a mailbox post?
- Planting or removing a tree?
- Installing a fence?
- Building a deck or laying a patio?

Every digging job requires a call to **811**.

pecoSM

AN EXELON COMPANY

At PECO, safety is our top priority.

PECO operates nearly 9,000 miles of underground electric, and 12,000 miles of natural gas distribution lines.

There are nearly 350,000 incidents of damage to underground utility lines nationwide because of digging without first calling 811. Striking an underground electric line or natural gas pipe can cause serious injury, damages, and service interruptions.

Failure to contact PA One Call could result in fines. Every digging project, no matter how large or small, warrants a call to 811.
