L.E.D. STANDS FOR GOOD

Actually, “LED” stands for “Light Emitting Diode.” LED bulbs will brighten up your holiday season and reduce your carbon footprint.

LED lights improve light quality and use less energy than incandescent bulbs. And they last up to 15 times longer. Take advantage of discounts and rebates while they last.

GAS SAFETY:
KEEP YOUR METER CLEAR OF LEAVES & DEBRIS

- Do not pile leaves in a way that limits access to your meter for service visits or emergency situations.
- Make sure exhaust vents and air intakes of natural gas appliances are not obstructed. If they’re blocked, dangerous carbon monoxide (CO) could accumulate in your home.

If you need to report a gas or electric emergency, call 1-800-841-4141.
A WORD ABOUT PECO BUDGET BILL

If you are on PECO Budget Billing, please remember—the amount you owe could change during the year, depending on your energy use. To receive PECO Budget Billing change notifications, sign up at peco.com/alerts.

Franklin Square—Check out the Electrical Spectacle Holiday Light Show, presented by PECO. The show features more than 75,000 twinkling lights and a dynamic holiday soundtrack - on display every evening from November 14 through December 31 (except Thanksgiving and Christmas). Photo by M. Edlow for VISIT PHILADELPHIA®

Presented by PECO

The Snow Queen

Arden Theater Company | November 27, 2019–January 26, 2020
Based on Hans Christian Andersen’s classic fairy tale, The Snow Queen celebrates the adventure of growing up and the magical power of friendship.

PECO customers receive 50% off Friday evening performances, and $5 off others. Just use code PECOSAVE.

Luminature@The Zoo

Philadelphia Zoo through January 5, 2020
An unbelievable transformation of the zoo that will take you on a magical journey where lights, music, and special surprises will inspire and delight each and every night.

Become a Zoo member and save on LumiNature tickets. Visit PhillyZooLumiNature.org

Holiday Lighting

Put Safety at the Top of Your List!

Use only lights tested and approved for safety by a nationally recognized testing laboratory.

Inspect: Check all lights for broken or cracked sockets, frayed or bare wires or loose connections. Discard damaged lights.

Attach Properly: Make sure outdoor lights are securely attached to trees, walls or other structures to protect from damage.

Watch Extension Cords: Don’t use more than three standard-size sets of lights for each single extension cord.

Turn Off: Before you go to bed or leave the house, turn off the lights on trees and other decorations.
