L.E.D. STANDS FOR GOOD

Actually, “LED” stands for “Light Emitting Diode.” LED bulbs will brighten up your holiday season and reduce your carbon footprint.

LED lights improve light quality and use less energy than incandescent bulbs. And they last up to 15 times longer. Take advantage of discounts and rebates while they last.

SHARE THE WARMTH

When you donate to PECO’s Matching Energy Assistance Fund (MEAF), every dollar is matched 100 percent by PECO and given directly to customers in need.

Make a one-time donation or donate through your bill each month. Every dollar counts, and any amount can make a difference.

Visit peco.com/MEAF to sign up and manage your contributions. Call 1-800-403-6806 to find out if your household qualifies for MEAF assistance.
HOLIDAY LIGHTING
PUT SAFETY AT THE TOP OF YOUR LIST!

Use only lights tested and approved for safety by a nationally recognized testing laboratory.

INSPECT: Check all lights for broken or cracked sockets, frayed or bare wires or loose connections. Discard damaged lights.

ATTACH PROPERLY: Make sure outdoor lights are securely attached to trees, walls or other structures to protect from damage.

WATCH EXTENSION CORDS: Don’t use more than three standard-size sets of lights for each single extension cord.

TURN OFF: Before you go to bed or leave the house, turn off the lights on trees and other decorations.
