GAS SAFETY IS OUR PRIORITY— ALL YEAR LONG

PECO is committed to delivering natural gas safely and reliably to our more than 523,000 gas customers in Southeastern Pennsylvania. This includes actively monitoring our system during storms and other emergencies. PECO's preparations for storms include strategically positioning gas mechanics near areas of potential flooding and across the entire service area for a quicker response to reported leaks or damages.

- Report abnormal natural gas pressure, a loss of service, or water in natural gas pipes, equipment, or appliances to PECO immediately
- If water has covered any part of your natural gas meter, call PECO to check the gas meter and its regulator.
- Contact PECO to arrange an inspection of its gas equipment if flood waters have shifted your home or caused other stresses to the gas pipes, creating the possibility for a natural gas leak.
- If you suspect a gas leak, do not attempt to find the source or to repair it. Leave the area immediately.

Contact PECO from a safe place at 1-800-841-4141 or (alternate number) 1-844-841-4151.

CHOOSE WHEN TO PAY YOUR PECO BILL

Convenient time frames are available for your convenience

Timing is everything. Avoid late fees, bounced checks, or missing payments by picking the best time frame for paying your monthly PECO bill. That way your paycheck, retirement deposits or other sources of income can arrive before you need to pay your PECO bill.

PECO COMMUNITY PARTNER

This month, Center City's only mini-golf course becomes **Spooky Mini Golf**—with lights, haunting music, fog and surprises, through October 31. Plus, on October 30, bring the little ones to **Trick-or-Treat Street**—presented by Fox Rothschild, for the best trick-or-treating experience. *Knocking on doors not required!*

Find additional information and purchase tickets in advance at historicphiladelphia.org.

LEARN THE SOUNDS OF FIRE SAFETY

Is there a beep or a chirp coming out of your smoke or carbon monoxide alarm?

- A continuous set of three loud beeps—beep, beep, beep—means smoke or fire. Get out, call 9-1-1, and stay out
- A single chirp every 30 or 60 seconds means the battery is low and must be changed
- All smoke alarms must be replaced after ten years
- Chirping that continues after the battery has been replaced means the alarm is at the end of its life and the unit must be replaced
- Make sure your smoke and CO alarms meet the needs of all your family members, including those with sensory or physical disabilities

On the cover: Built in 1838, The Franklin Square Fountain is the oldest refurbished and functioning public water fountain in the United States, and is the longest surviving fountain in one of William Penn's original five squares. In 2006, Historic Philadelphia, Inc. restored the fountain, including the vintage marble and surrounding wrought iron fence. The LED light show was added in 2019. *Photo by Jeff Fusco*
