

Pack your PECO.

**Start, stop or move
your energy service to
your new home with
PECO's simple online tool.**

Whether you're a new customer, an existing customer transferring service to a new address, or moving out of the PECO service territory—PECO will remotely connect and disconnect service.

Let's Move

Saving energy is now extra rewarding

**Earn bonus rebates from \$200 to \$750 for
completing two or more qualifying upgrades.**

Saving energy is always rewarding. With our new bonus rebates, it's even more so. Complete various qualifying energy efficiency upgrade projects from May 31, 2022 to December 31, 2023 to earn an extra \$200 to \$750 in addition to our standard rebates. Bonus rebate funds are limited and subject to availability. No additional application is required to receive your bonus.

Get to know your heat pump—and how it works.

How does a heat pump work? Heat pumps work more efficiently than conventional heating systems. Heat pumps move air constantly, providing an even and constant air temperature in your home. On most winter days, when the temperature is above freezing, your thermostat can be set at 68 degrees.

What if it's below freezing? Heat pumps have built-in backup systems that are triggered when temperatures dip below freezing. However, backup systems can use a lot of electricity. It's best to keep thermostat set right around 68, then drop the setting a few degrees when the outside temperature dips below freezing.

When you donate to customers in need, every dollar counts, twice.

Every dollar you donate to **PECO's Matching Energy Assistance Fund (MEAF)** is matched 100 percent by PECO and given directly to customers in need. These funds are used to provide a one-time grant to qualifying customers who suffer a catastrophic loss of income.

Make a one-time donation or donate through your PECO bill each month. Every dollar counts, and any amount can make a difference. Visit peco.com/MEAF to sign up and manage your contributions.

Call **1-800-403-6806** to find out if your household qualifies for MEAF assistance.
