

Energy Efficiency Upgrades Can Help Any Business Thrive PECO offers incentives and expertise.

Every business—large or small—relies on energy to keep the lights on and operations running smoothly. With PECO incentives for energy efficiency measures, you can save energy and money on your monthly energy bill.

Whether your business is just beginning to work on basic energy efficiency projects, or seeking maximum savings with specialized equipment upgrades, PECO incentives and expertise can help. It's time to check out the incentives and opportunities that can help you save.

How Different Sizes and Types of Companies Can Save

With energy efficiency improvements that can reduce your operating costs and increase your profit margins, PECO wants to help your business thrive.

Commonly incentivized projects for all kinds of businesses include:

- **Restaurants:** Replace old incandescent bulbs with efficient, dimmable lighting fixtures and create the ambiance needed for a 5-star review.
- **Grocery stores:** Upgrade to high efficiency refrigeration to reduce food spoilage while saving energy.
- **Offices:** Install motion control sensors that only use lights when they're needed. A more efficient HVAC system can keep your workers comfortable and productive.
- **Manufacturing:** Reduce downtime and improve worker safety with LED lighting. And upgrading to premium efficiency motors helps your business run stronger, longer—and cost you less.

Ready to get started saving energy and money? Visit the PECO page to request a small business energy analysis.

Everything you need to know about converting to Electric Vehicles

Whether you're an EV driver or considering buying an EV for your business, PECO's EVsmart Program has the information you'll need.

- Through our **EV roadmap**, you can learn about our process, timelines and requirements for installing a fleet or single EV charging infrastructure.
- With PECO's **EV toolkit**, you can learn the basics of EV charging, use savings calculators, view state and federal tax incentives and locate an EV dealer in your area.
- PECO's **Driver Rebate** offers \$50 per car just for letting us know you have purchased a personal plug-in electric vehicle.

For more information on how to get started with Electric Vehicles, visit peco.com/EV or email EV@PECO.com

FREE Business Energy Assessments

Choose the level of input and detail that fits your needs.

- **Tier 1 Energy Scorecard**—We'll analyze your existing usage data, provide a snapshot of your facility's energy use and recommend improvements you can make right away.
- **Tier 2 Energy Profile**—Complete a customer survey and receive your digital energy profile. Get specific recommendations based on your facility's equipment and energy use.
- **Tier 3 On-Site Assessment**—Schedule an on-site assessment with a PECO energy expert. Select customers will be eligible.

Turn your assessment into energy savings with PECO instant discounts and **financial incentives** on a variety of energy efficient equipment and projects.
