Franklin Square Fountain

OCTOBER 2021

GO ONLINE TO START OR STOP YOUR PECO SERVICE.

Business customers with an existing PECO account can start or stop their service online—even for additional locations as your business grows. If your business is new to PECO, you can start service online, too. **Visit peco.com/BizStartStop**

PREPARE YOUR BUSINESS FOR WINTER WEATHER

When the forecast calls for a serious storm, keep these preparation tips in mind for your small business:

- Set up a communication plan for employees, and for customers
- Communicate hours of operation using social media and email
- Keep an eye on power lines, report outages immediately
- Salt sidewalks, driveways, parking lots and entry ways before snow or ice arrive
- Check on carbon monoxide and smoke detectors, alarm system, etc.
- Make sure insurance documents are updated and easily accessible

For information on how to prepare for severe weather and other challenges for small businesses, visit The Small Business Administration at sba.gov.

KEEPING OUR NIGHT SKY SAFE FOR MIGRATING BIRDS

PECO is proud to participate in Lights Out Philly, created to protect migratory birds as they navigate Philadelphia's night sky. The organization was created in response to a mass collision event on October 2, 2020, in which thousands of migratory birds died after colliding with buildings in Center City. Participants turn off as many non-essential exterior and interior lights as possible, so they will not confuse birds from midnight to 6 a.m. during spring and fall migration.

LIGHTS OUT PHILLY

This simple action can potentially reduce bird deaths up to 80%. It also helps reduce energy costs. Anyone can participate—residents, businesses and municipalities. **Learn more about the partnership that created this initiative, the many participating organizations and find out how you can help at birdsafephilly.org**

HOW IS PECO PARTICIPATING?

- PECO building's interior lights, activated by sensors, are dark when not in use.
- PECO's iconic Crown Lights messaging system will feature movement/animation and we've adjusted the brightness.

SMALL BUSINESSES CAN SAVE BIG. PECO CAN HELP.

PECO can help you reduce operating costs, freshen up the look of your space and products and make your energy efficiency projects hassle-free and affordable.

- **Complimentary energy analysis.** Receive a comprehensive on-site energy analysis and estimated energy savings associated with recommended upgrades
- **Direct install.** Get direct installation of energy-saving improvements
- **Financing options and Discounts.** Connections to multiple financing options, energy savings that pay for your upgrades and post-installation warranties are available for qualifying upgrades

On the cover: Built in 1838, The Franklin Square Fountain is the oldest refurbished and functioning public water fountain in the United States, and is the longest surviving fountain in one of William Penn's original five squares. In 2006, Historic Philadelphia, Inc. restored the fountain, including the vintage marble and surrounding wrought iron fence. The LED light show was added in 2019. *Photo by Jeff Fusco*
