BRIGHTEN UP THE HOLIDAYS WITH PECO DISCOUNTED LEDs

LED bulbs will brighten up your holiday season and reduce your carbon footprint. LED lights improve light quality and use less energy than incandescent bulbs. And they last up to 15 times longer. Take advantage of in-store discounts or online at peco.com/marketplace.

8 WAYS TO STAY SAFE THIS SEASON

1. Artificial tree? Make sure it’s labeled “fire resistant”
2. Live tree? Cut off about 2 inches of the trunk to expose fresh wood for better water absorption. Remember to water it; remove it from your home when it is dry
3. Place your tree at least three feet away from fireplaces, radiators and other heat sources, making certain not to block doorways
4. Keep burning candles within sight. Extinguish all candles before you go to bed, leave the room or leave the house
5. Only use indoor lights indoors and outdoor lights outdoors
6. Replace light sets that have broken or cracked sockets, frayed or bare wires, or loose connections
7. Follow the package directions on the number of light sets that can be plugged into one socket
8. Never nail, tack or stress wiring when hanging lights and keep plugs off the ground away from puddles and snow
