

# GAS RATES TO CHANGE BEGINNING JANUARY 1, 2020

Beginning with service provided January 1, 2020, changes will affect your monthly gas bill. For a residential customer using 80 cubic feet (Ccf) per month, the effect of these approved changes is a total increase of \$1.24 to the typical monthly bill, from \$77.89 to \$79.13, or 1.59%. For a commercial customer using 400 Ccf per month, the bill will increase by \$5.39, from \$361.02 to \$366.41, or 1.49%. The enclosed bill reflects these changes. Here are the details:

**Federal Tax Adjustment (FTA):** The FTA recovers the 2018 and 2019 estimated tax changes to gas customers as a result of the Tax Cuts and Jobs Act that was effective on January 1, 2018 and projected tax changes for 2020. The adjustment is a charge of 1.74%. Compared to the previous credit value of 1.20%, the new adjustment, including the impact on the Distribution System Improvement Charge (DSIC), will result in a \$1.26 increase for a typical residential customer using 80 Ccf per month. For a commercial customer using 400 Ccf per month, the increase, including the impact on the DSIC, will be \$5.48 on the monthly bill.

**State Tax Adjustment (STA):** The STA will change from a credit of 0.34% to a credit of 0.36%. This change will result in a \$0.02 decrease for the monthly bill of a typical residential customer using 80 Ccf of gas per month and a \$0.09 decrease on the monthly bill for a commercial customer using 400 Ccf per month.
