THIS SUMMER:
MAKE ELECTRIC SAFETY A PRIORITY

Always assume power lines and wires are “live and dangerous.”

• Fly kites, model airplanes, drones and other toys only in large open areas—safely away from trees and overhead power lines.

• Do not throw items (such as gym shoes) onto electric lines or try to retrieve items from around power lines.

• Do not climb trees near power lines. Even if the power lines are not touching a tree, they could touch during climbing when more weight is added to a branch.

• Keep electrical toys, appliances and power tools at least 10 feet away from pools and wet surfaces.

• Never touch any electrical toy, appliance or power tool while you are wet or standing in water.

WE’VE UPDATED THE LOOK OF ENERGY@HOME to celebrate the region we serve. We’re starting with one of our favorite views of the Philadelphia skyline (taken from the South Street Bridge) which includes our iconic Crown Lights. Each month, we’ll feature a different view from around the PECO service territory. We hope you like the new look!
CALL BEFORE YOU DIG

Planting a bush?
Building a fence or deck?
Installing a mailbox?

Every digging job requires a call to 811. It’s the law.

SAFE, EFFICIENT GRILLING STARTS WITH CLEAN EQUIPMENT

• Turn off or disconnect the grill before cleaning
• Check hoses for holes, cracks and leaks
• Use a flexible brush to remove debris
• Clean the holes or ports of each burner with a thin wire brush
• Follow manufacturer’s instructions for proper lighting, safety and maintenance
