

NATURAL GAS RATES TO CHANGE BEGINNING MARCH 1, 2021

Beginning March 1, 2021, natural gas rates for PECO residential customers will increase by 2.417 cents per 100 cubic feet (Ccf) of gas. The increase is the result of the reconciliation of collections for previous natural gas purchases and higher projected natural gas charges.

With these changes, the monthly natural gas bill for a residential customer using an average of 80 Ccf of natural gas will increase by \$1.94 per month, from \$71.97 to \$73.91, or by about 2.7%.

The monthly bill for a commercial customer using an average of 400 Ccf of natural gas (Rate GC - General Service - Commercial and Industrial) will increase by \$9.56 per month, from \$331.12 to \$340.68, or by about 2.9%.

If you purchase the natural gas you use through PECO, the actual impact on your bill will depend on the amount of natural gas you use. If you purchase the natural gas you use from a competitive natural gas supplier, the price you pay will depend on the price and terms of your contract with your supplier.

These proposed prices are based on current wholesale market prices. PECO continuously monitors market prices and may adjust prices on a quarterly basis (March 1, June 1, September 1 and December 1).

Questions

For more information on any of these changes visit [peco.com/rates](https://www.peco.com/rates) or call **1-800-494-4000**.

Small business customers can call PECO's Business Customer Service Team at **1-800-220-PECO (7326)**.

Large business customers can contact their account representative directly.
