

We'll help you shine a light on energy savings.

With a **customized energy report**, PECO can help you see how your business is wasting energy and how upgrading to energy-efficient lighting can help you reduce costs, so you can put more money back into your business.

▶ Request your report at peco.com/BizReport.

PECO. The future is on.

An Exelon Company

Upgrade to LEDs that last 15 times longer and use 75% less energy than traditional lighting.

Your **customized energy report** highlights opportunities to improve your energy efficiency, like upgrading to LED lighting that offers:

- Reduced energy and maintenance costs
- Increased comfort and safety for employees and customers
- Excellent quality in color, durability and brightness

▶ **Get started today** at peco.com/BizReport or call **1-844-4BIZ-SAVE** (1-844-424-9728).

“We saw immediate savings and our customers tell us how much they appreciate it. It’s a win-win. I wish we had more sites in Pennsylvania where we could make upgrades with PECO.”
