

NATURAL GAS RATES TO CHANGE BEGINNING DECEMBER 1, 2020

Beginning December 1, 2020, natural gas rates for PECO residential customers will decrease by 6.913 cents per 100 cubic feet (Ccf) of gas. The decrease is due to:

- A 7.018 cents per Ccf decrease in the gas commodity portion of the bill. This change is primarily due to the reconciliation of collections from previous natural gas purchases partially offset by an increase in projected natural gas charges.
- A 0.105 cents per Ccf increase in PECO's distribution charge for residential natural gas customers due to the annual reconciliation of the Company's Universal Service Fund Charge, which recovers expenses for the Company's Customer Assistance Program as approved by the Pennsylvania Public Utility Commission (PUC).

With these changes the monthly natural gas bill for a residential customer using 160 Ccf of natural gas will decrease by \$11.00 per month, from \$145.17 to \$134.17, or by about 7.6%.

The monthly bill for a commercial customer (Rate GC – General Service Commercial and Industrial) using 400 Ccf of natural gas will decrease by \$28.10 per month, from \$365.14 to \$337.04, or by about 7.7%.

If you purchase the natural gas you use through PECO, the actual impact on your bill will depend on the amount of natural gas you use. If you purchase the natural gas you use from a competitive natural gas supplier, the price you pay will depend on the price and terms of your contract with your supplier.

The proposed price is based on current wholesale market prices. PECO continuously monitors market prices and may adjust prices on a quarterly basis (March 1, June 1, September 1 and December 1). The PUC conducts annual investigations and audits to confirm that all natural gas rate changes are necessary and proper.
