

## **9. ELECTRICAL INSPECTION AGENCIES**

### **9.1 INTRODUCTION OF SERVICE**

Electricity will be introduced through a service of the Company only if the Customer has met the provisions of Section 4.12. Independent inspection agencies provide the necessary inspections for the Customer, and submit proper certification to the Company that the installation complies with all applicable provisions of the National Electrical Code and the Pennsylvania Uniform Construction Code (“PA UCC”) as set forth in 35 P.S. §§7210.101 et. seq. and 34 Pa. Code §401 et. seq..

As of September 1, 2004 PECO requires all electrical inspectors from whom we accept cut-in cards to provide evidence of compliance with the requirements of the Pa UCC.

PECO will only accept cut-in cards for service entrance facilities of one and two family dwellings from inspectors who provide evidence of their compliance with the Uniform Construction Code

### **9.2 ELECTRICAL INSPECTION SERVICE**

The Customer or Contractor may engage the services of any independent electrical inspection agency certified by the State of Pennsylvania to submit certificates of inspection for the introduction of service, except for the restrictions indicated in Section 9.3

### **9.3 MUNICIPALITIES DESIGNATING SPECIFIC INSPECTION AGENCIES**

Some of the municipalities and townships located within the service area of the Company have traditionally designated, by ordinance, only certain agencies to perform the required inspection services within their respective jurisdictions. During the transition to compliance with the Uniform Construction Code by these jurisdictions, where applicable and in accordance with regulatory requirements, the company will recognize certification of inspection only from duly authorized inspection agencies within that particular municipality.

### **9.4 INSPECTION REQUIREMENTS FOR THE CITY OF PHILADELPHIA**

Any inspector who performs electrical inspections within the City of Philadelphia must have UCC certification / registration with PA Dept of Labor and Industry, work for an inspection agency recognized by the City, and be registered with the City as meeting criteria in addition to UCC registration and certification. Inspection agencies recognized by the City of Philadelphia are noted in the following list. A link to the site has been provided here at your convenience.

### **9.5 ELECTRICAL INSPECTION AGENCIES**

As of Apr. 10, 2009, only persons listed by the Pennsylvania Department of Labor and Industry as UCC certified may legally engage in any aspect of UCC enforcement in each category of work that they perform. UCC qualification of individual inspectors can be verified on the following public web site maintained by the State of Pennsylvania Department of Labor and Industry.

Below is the link to the PA Department of L&I UCC Certified Inspector List, and their associated areas of certification. If the UCC Class Codes for the UCC Certified Inspectors are 11, 14, 19 or 22 (Residential Electrical Inspector, Residential Energy Inspector, Electrical Inspector or Energy Inspector) then they are accepted by PECO.

PA Dept of L&I - List of UCC Certified Inspectors

NOTE: There are numerous Independent Electrical Inspection Agencies in the surrounding area that can be contacted to perform Electrical Inspections for the introduction of service. The company does not assume any responsibility for the customer's wiring or equipment, or for any loss or damage that may result from any defects that may exist in the customer's wiring and equipment.

## **9.6 MUNICIPAL ELECTRICAL INSPECTORS**

Below is a list of municipalities that have their own electrical Inspectors. Other, independent agencies may also be acceptable. Contact the municipality for further information.

### **Chester County**

Tredyffrin Township  
1100 DuPortail Rd  
Berwyn, PA 19312  
tredyffrin@tredyffrin.org
