Notes:

- (1) Commodity Charge (CC) Excluding GPC and MFC: Charges to reimburse utilities for the costs to purchase natural gas for customers. These charges are passed along to customers at the exact price PECO pays, with no mark up.
- (2) Gas Procurement Charge (GPC): Reflects the utility's natural gas procurement costs relating to gas supply service, acquisition and management costs as well as administrative, legal, regulatory and general expenses related to procurement activities excluding those related to the administration of firm storage and transportation capacity.
- (3) Merchant Function Charge (MFC): Reflects uncollectible charge-offs associated with gas supply for Sales Service customers.
- (4) Gas Cost Adjustment (GCA): Either a credit or charge reflecting the difference between revenues collected and actual costs to purchase natural gas for customers, including associated interest.
- (5) The PTC does not apply to Rates MV-I (Motor Vehicle - Interruptible), IS (Interruptible Service), TCS (Temperature Controlled Service), TS - I (Transportation Service - Interruptible), TS - F (Transportation Service - Firm).
